

Adobe Font Folio 7

The collection **Adobe Font Folio 7** published in the year 1995 comprises hundreds of typefaces by various foundries with a total of 1940 fonts (font styles). The fonts are in PostScript Type 1 format, usually with the complete Adobe Standard Encoding character set (= Windows Code Page 1252).

We here supply two short reference lists designed for printout on paper and two very long detailed reference lists with additional information about font internals designed for on-screen consultation:

3.0 Font Name List of Font Folio 7.1 (1996)	109

Adobe Systems Inc. appropriated the copyrights to nearly all typefaces included in the Font Folio 7. The entire Font Folio 7 collection contains 1940 PFM and 1940 PFB font files: 1852 PFM files are provided with the copyright notice „**Copyright 1985-1994 Adobe Systems Inc.**“ (the year varies), 84 PFM files with the Monotype copyright notice, and 4 PFM files with the Microsoft copyright. There do not exist any PFM files with any copyright notice of Linotype, Berthold or other foundries.

But many Linotype fonts have an „outline data copyright notice“ (a legal fiction, since data as such are not copyrightable) in this way: „**The digitally encoded machine readable outline data for producing the Typefaces licensed to you is copyrighted (c) 1981 Linotype AG and/or its subsidiaries**“. Yet, there are Linotype fonts, where Adobe appropriated the entire copyrights, e.g. the Linotype fonts „Centennial“ (files CIR____.PFB etc.), „Frutiger“ (files FTR____.PFB etc.), „Stempel Garamond“ (files GSR____.PFB etc.), „Melior“ (files ME____.PFB etc.) etc. etc.

Of course, none of the „Adobe“ fonts displaying the „Adobe“ copyrights in the font files contains any name of any copyright author, i.e. of any font designer, since in the funny font forging industry (see <http://www.sanskritweb.net/forgers/forgers.pdf>) it is not customary to give credit to authors.

For reasons of completeness, we also append a font name list of **Adobe Font Folio 7.1** (1996) which contains several additional fonts, e.g. Aja, Alexa, Balzano, etc.
