

Softmaker TruePack Professional 1994

For comparison with the Megafont XXL CD of 2002, we here list the 10-year-old predecessor TruePack Professional of 1991–1994. At that time, many fonts were still offered under their real names, e.g. Aachen as Aachen, Aster as Aster, Bauhaus as Bauhaus etc. The old Truepack CD comprised 500 fonts. A ripoff of this TruePack CD is still published by Sean Cavanaugh as "The FontSite 500 CD" (see document <http://www.sanskritweb.net/forgers/megafont.pdf>, page 18).
